Matplotlib Style Gallery

This gallery compares stylesheets defined in Matplotlib.

Note: User input has been disabled

Style	artist-demo	bar-plots	streamplot
bmh			classic			dark_background			fivethirtyeight			ggplot			
Style	artist-demo	bar-plots	streamplot
grayscale			seaborn-bright			seaborn-colorblind			seaborn-dark			seaborn-dark-palette			seaborn-darkgrid			
Style	artist-demo	bar-plots	streamplot
seaborn-deep			seaborn-muted			seaborn-notebook			seaborn-paper			seaborn-pastel			seaborn-poster			
Style	artist-demo	bar-plots	streamplot
seaborn-talk			seaborn-ticks			seaborn-white			seaborn-whitegrid			
Note:

These plots were generated with the default matplotlib parameters, **plus** a *default* colormap that was set to gray-scale and no interpolation**.** You can do the same on your system by adding the following to your `~/.matplotlib/matplotlibrc` file:

```
image.cmap : gray
image.interpolation : none
```

Without this change, most styles will default to the "jet" colormap, which is terrible for so many , many reasons .

Built with Matplotlib 1.5.1. Source code for this gallery available on github.
